Flooring and Floor Covering Permits

Building Permit – to include all floor coverings

Effective immediately, Mutual Five requires a GRF Building Permit for **all** floor covering, including carpet. Floor covering must be installed by a GRF vetted contractor. Both interior and patio/porch floor covering will require a GRF Building Permit. If original flooring is disturbed this will require all abatement procedures for asbestos be followed. All testing reports and EPA/AQMD permits will be required as needed. Copies of permits and testing reports shall be filed with GRF flooring permit.

Reason for this requirement includes:

1. Assurance that no asbestos contained material is removed or compromised.
2. No Mutual property is damaged
3. Interior/exterior patio/porch flooring must be nonskid, with C.O.F. minimum 0.42
4. Shareholder understands what is and what is not allowed
5. Shareholder understands that Mutual Five is not responsible for damage to, or failure of, flooring purchased and installed by shareholders or their successor shareholders.

A copy of this Policy, signed below by the shareholder and installer or contractor, shall be attached to the permit.

Shareholder Signature: _____ Apartment # _____

Name Printed: _____ Date: _____

Contractor/Installer:

Company Name: _____
